

Krupesh Patel

AI & Power Platform Solutions Engineer / Architect

I connect agents, automation, Microsoft platforms, and enterprise APIs to real business systems, then add the governance and delivery discipline required to make them dependable.

PROFILE

Hands-on architect with 15+ years of enterprise delivery. My foundation spans SharePoint, Microsoft 365, Power Platform, RPA, Azure, APIs, and UI/UX. I now apply that depth to MCP-connected tools, Copilot Studio, and autonomous agents without losing security, usability, or supportability.

- Architecture
- Hands-on engineering
- Governance
- Delivery leadership

CORE STRENGTHS

CREDENTIALS

- Microsoft Power Platform Solution Architect Expert
- Power Platform Developer Associate
- UiPath Certified RPA Developer
- Nintex Workflow Pro and K2 Architect
- Microsoft SharePoint Developer certifications

M.S. Computer Science
University of Bridgeport · GPA 3.76/4.0

B.E. Information Technology
BVM Engineering College · S.P. University

PROFESSIONAL EXPERIENCE

- Hunt Oil Company** 2023-Present
Senior Solution Architect · AI, Agents, MCP, Azure & Power Platform
 - Built a reusable MCP SDK and onboarded 10+ servers across ITSM, security, identity, infrastructure, Microsoft 365, and business data.
 - Deliver agent orchestration, Copilot Studio, mobile Power Apps, Power Automate, governance, DLP, and Azure DevOps CI/CD, helping move delivery from months toward weeks.
- Wells Fargo** 2022-2023
Lead Application Architect · M365, Power Platform & Migration
 - Led governance and migration delivery for 1,200+ SharePoint sites, with automated intake, approvals, reporting, and SPFx modernization.
- Live Nation / Ticketmaster** 2022-2023
Lead Application Architect · Supplier Automation
- BravoTECH / Hunt Consolidated** 2021-2022
Lead Application Developer · Automation & Power Platform
- American Airlines** 2018-2021
Lead Application Developer · Enterprise UX & Automation
 - Led responsive enterprise UX and FAA-governed workflows; delivered Flight Operations and aircraft-parts applications across 20+ operating groups.

Earlier experience: Range Resources · Fannie Mae · IIR/DHS · Bluetooth SIG · Lazard · Ernst & Young | SharePoint architecture, workflow, migration, document management, and enterprise UI (2011-2017)

SELECTED PROJECT IMPACT

Enterprise MCP & agent ecosystem

Agent SDK/orchestrator, employee onboarding, daily task execution, monitoring, safe self-healing, reusable knowledge, and human approvals.

Power Platform delivery system

30+ apps, 50+ process automations, Copilot Studio, AI prompts, code apps, adaptive cards, reusable UI, DLP, permissions, and governed releases.

Automation modernization

Migrated 30+ UiPath processes to Power Automate RPA in under two months, with \$40K+ estimated annual savings.

Enterprise modernization

1,200+ SharePoint sites migrated, 125+ projects completed, and operational applications delivered across 20+ business groups.
