

KRUPESH PATEL

AI & Power Platform Solutions Engineer | Enterprise Architect

Dallas-Fort Worth, TX | (251) 581-4769 | kp-9287@hotmail.com | [linkedin.com/in/krupesh87](https://www.linkedin.com/in/krupesh87) | Green Card EAD

PROFESSIONAL PROFILE

AI and Power Platform solutions architect with 15+ years of hands-on experience across SharePoint, Microsoft 365, enterprise workflow, RPA, cloud integration, and modern AI. I connect agents and copilots to real business systems through MCP, APIs, Azure, and Power Platform, then add the governance, CI/CD, observability, security, and reusable engineering practices teams need to ship dependable solutions in weeks instead of months.

CORE EXPERTISE

Power Platform architecture | Power Apps & Power Automate | SharePoint & Microsoft 365 | RPA & workflow modernization | Agentic AI & orchestration | Model Context Protocol (MCP) | Copilot Studio & AI Builder | Azure Functions & Logic Apps | Azure DevOps & CI/CD | Enterprise API integration | Power Platform governance | DLP, security & permissions | Python, C#, JavaScript & SQL | AI-assisted engineering

SELECTED ENTERPRISE IMPACT

- Built on 15+ years and 125+ completed projects across SharePoint, Microsoft 365, workflow, and Power Platform to create secure modernization roadmaps that teams can operate and extend.
- Created a reusable MCP SDK and onboarded 10+ enterprise MCP servers across ITSM, security, infrastructure, identity, collaboration, and Microsoft 365 reporting.
- Accelerated Power Platform and AI delivery with governed DevOps, reusable components, MCP-enabled generation, and AI-assisted engineering - moving practical solutions from months toward weeks.
- Migrated 30+ UiPath automations to Power Automate RPA in under two months, with \$40K+ estimated annual savings and stronger queue-based auditability.
- Migrated and modernized 1,200+ SharePoint sites and delivered enterprise applications used across 20+ operating groups.

PROFESSIONAL EXPERIENCE

Hunt Oil Company | Dallas, TX

Apr 2023 - Present

Senior Solution Architect | AI, Agents, MCP, Azure & Power Platform

- Built an enterprise MCP SDK and onboarding pattern that brought 10+ MCP servers into a consistent, supportable ecosystem, including ServiceNow, Tanium, SharePoint Lists, Microsoft 365 reporting/licensing, Rapid7, Mimecast, SailPoint, Nutanix, and Palo Alto Panorama.
- Designed agent tools and orchestration patterns that connect reasoning workflows to real enterprise systems while keeping authentication, permissions, logging, retries, and human approval points explicit.
- Created Agent SDK and Agent Orchestrator capabilities for employee onboarding scenarios, including profile/persona cloning, task creation, access coordination, progress monitoring, and reusable onboarding knowledge.
- Developing autonomous operations agents that start from a daily task list, monitor work, detect failures, attempt safe self-healing, and build knowledge from completed work and operational feedback.
- Used Power Platform MCP, Copilot Studio, AI prompts, Power Automate, and Power Apps to generate reports and working automations faster - helping move delivery cycles from months toward weeks.
- Established Azure DevOps projects, repository and environment permissions, automated CI/CD pipelines, solution promotion, and release controls for AI and Power Platform delivery.
- Built mobile-friendly Power Apps and code apps with agentic AI experiences, reusable responsive components, adaptive cards, and a unified UI that reduces hand-built work across projects.

- Set up Power Platform governance with environment strategy, DLP policies, security roles, connector controls, and deployment standards to balance innovation with enterprise risk management.
- Created reusable Claude and ChatGPT/Codex skills, starter patterns, and review checklists so junior developers and interns can contribute safely to Power Platform automation, adaptive cards, and standardized app UI.
- Used Claude Code and ChatGPT Codex as engineering partners to draft and review C#, JavaScript, Python, Power Platform, and UI changes while keeping final technical decisions and code quality under human review.
- Previously delivered enterprise MDM/vendor onboarding, SAP S/4HANA and OpenInvoice integration, DocuSign automation, IT portfolio management, and a 30+ process UiPath-to-Power-Automate migration completed in under two months with \$40K+ estimated annual savings.

Wells Fargo Bank | Dallas, TX

Dec 2022 - Oct 2023

Lead Application Architect | M365, Power Platform & Migration

- Led governance, information architecture, and migration delivery for 1,200+ SharePoint 2013 sites moving to SharePoint Online.
- Built an automated site-intake and approval experience with Power Apps and Power Automate, backed by reporting for leadership visibility.
- Led offshore delivery, scheduled migrations with ShareGate/AvePoint, and modernized shared navigation and UI through SPFx solutions.
- Designed Power Apps against large datasets of 200K+ records using Dataverse, SQL, and SharePoint patterns appropriate to scale.

Live Nation / Ticketmaster | Dallas, TX

Oct 2022 - Mar 2023

Lead Application Architect | Supplier Automation

- Architected a supplier-intake solution with tiered approvals, DocuSign, Dataverse, Power Apps, Power Automate, and Power BI.
- Automated extraction of DocuSign template data into Dataverse and created operational reporting for vendor status and adoption.
- Mentored a three-person team on Power Platform fundamentals, solution design, reusable patterns, and release automation.

Bravo Tech / Hunt Consolidated | Dallas, TX

Oct 2021 - Dec 2022

Lead Application Developer | Automation & Power Platform

- Delivered UiPath automation for utility-statement extraction and document workflows spanning DocuSign, PDF data, SQL, SharePoint, and Power Platform.
- Built compliance and contractor-management applications and translated stakeholder needs into Figma prototypes and production solutions.
- Modernized and retired legacy K2 applications while documenting supportable replacement patterns.

American Airlines | Fort Worth, TX

Jun 2018 - Oct 2021

Lead Application Developer | Enterprise UX & Automation

- Led UI architecture and delivery across enterprise K2 and SharePoint products, creating reusable responsive themes and interaction patterns.
- Built a Flight Operations messaging application used to prevent overfly events; the program was credited internally with approximately \$2B in annual savings.
- Delivered a complex aircraft-parts setup system used by 20+ groups and integrated SQL, Teradata, Alteryx, K2, and web technologies.
- Created digital-signature controls and responsive workflows supporting FAA-governed operational processes.

EARLIER EXPERIENCE

Range Resources

Dec 2015 - Jul 2017

Sr. SharePoint Developer - Mobile-first Nintex forms, workflows, signatures, geolocation, and SharePoint intranet delivery.

Fannie Mae

Aug 2014 - Dec 2015

Sr. SharePoint Architect / Developer / UI Developer - SP2007-to-SP2013 migration, approval workflows, responsive UI, and iPad check-in applications.

Institute for Intergovernmental Research (IIR/DHS)

Aug 2013 - Jul 2014

Sr. SharePoint Developer / Administrator / Architect - Owned NIEM.gov enhancements, hybrid SharePoint administration, search, ADFS integration, and custom solutions.

Bluetooth SIG

Feb 2013 - Jul 2013

Sr. Software Developer - Redesigned bluetooth.org and delivered SharePoint architecture, deployment automation, navigation, voting, and attendance features.

Lazard

Apr 2012 - Feb 2013

Software Application Developer - Built secure global document-management, workflow, metadata, and SharePoint deployment solutions.

Ernst & Young

Jul 2011 - Apr 2012

Software Developer - Implemented SharePoint document automation, ribbon customization, workflows, and publishing controls.

CERTIFICATIONS & EDUCATION

- Microsoft Certified: Power Platform Solution Architect Expert (2024)
- Microsoft Certified: Power Platform Developer Associate
- UiPath Certified RPA Developer (2022)
- Nintex Workflow Pro Certified | K2 Certified Architect (2021)
- Microsoft SharePoint Developer certifications (SharePoint 2010/2013)

M.S., Computer Science - University of Bridgeport | GPA 3.76/4.0

B.E., Information Technology - BVM Engineering College, S.P. University
